INDEPENDENT AUDITOR'S REPORT

To the General and Limited Partners of
Vermont Seed Capital Fund, L.P.
Burlington, Vermont

We have audited the accompanying financial statements of Vermont Seed Capital Fund, L.P. (a limited partnership) which comprise the statements of assets, liabilities, and partners' capital as of June 30, 2022 and 2021, and the related statements of operations, changes in partners' capital, and cash flows for the years then ended, and related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Vermont Seed Capital Fund, L.P. as of June 30, 2022 and 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Vermont Seed Capital Fund, L.P. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Vermont Seed Capital Fund, L.P.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the General and Limited Partners of
Vermont Seed Capital Fund, L.P.
Burlington, Vermont
Page 2

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Vermont Seed Capital Fund, L.P.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Vermont Seed Capital Fund, L.P.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Dennis & Holly Lou Amuriba CPAs, PLLC

Williston, Vermont

VERMONT SEED CAPITAL FUND, L.P.

NOTES TO FINANCIAL STATEMENTS

June 30, 2022 and 2021

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Nature of operations

Vermont Seed Capital Fund, L.P. (the Partnership), is a limited partnership formed under the laws of Vermont on March 11, 2010. The General Partner of Vermont Seed Capital Fund, L.P., is VCET Capital Corporation (the General Partner).

The Partnership is organized: (1) to increase the amount of investment capital provided to firms within the State of Vermont and to support job creation and preservation in the State of Vermont; (2) to acquire, directly or indirectly, hold for investment, convert and distribute or otherwise dispose of Portfolio Investments and other Securities in accordance with the Entrepreneurs' Seed Capital Fund as set for in the Fund Act promulgated by the Vermont legislature; (3) to provide favorable investment returns to the Partners; and (4) carry on any other activities necessary in connection with or incident to the foregoing.

Key partnership performance objectives include: (1) generating a sufficient market financial return in order to revolve the fund, after expenses and any distributions; (2) creating jobs and positive payroll impact in the Vermont business community; (3) adequately leveraging the Fund's capital; and (4) creating positive synergies with Vermont businesses, the State's economy, Vermont colleges and universities, and other venture capital firms looking to invest in Vermont businesses.

The Partnership Agreement states that the Partnership shall terminate on December 31, 2060, unless otherwise extended or terminated earlier by the General Partner with consent of a majority-in-interest of the limited partners, as defined.

Advisory board and investment committee

Prior to making its first investment, the Partnership created an advisory board consisting of five members: two appointed by the Limited Partners, two members appointed by the General Partner, and one member appointed jointly by the Limited and General Partners. The Advisory Board provides non-binding advice and recommendations and represents the economic interests of the State of Vermont with respect to the management of the Partnership. The Partnership advises the Advisory Board of investments made and provides access to all information held by the Partnership with respect to investments. The General Partner also appoints an investment committee of at least three people qualified to make investment decisions on behalf the General Partner and the Partnership. A majority approval of investment committee members is required for any investment to be made with Partnership assets.

A summary of significant accounting policies follows:

Basis of accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Under the accrual basis of accounting, revenues are recorded as earned and expenses are recorded at the time liabilities are incurred.

VERMONT SEED CAPITAL FUND, L.P.

NOTES TO FINANCIAL STATEMENTS
June 30, 2022 and 2021

Note 1. Nature of Operations and Summary of Significant Accounting Policies (continued)

Recently issued accounting standards

In January 2016, the FASB issued Accounting Standards Update (ASU 2016-01) Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities. This standard amends the current guidance regarding classification of equity investments into different categories and requires that equity investments be measured at fair value with changes in fair value being recognized in net income rather than in other comprehensive income. Effective July 1, 2020, the Partnership adopted the standard and the transition was performed retrospectively as a cumulative effect adjustment to opening partners' capital as of July 1, 2019. As of the adoption date, the Partnership recorded a cumulative effect adjustment of \$908,456 to decrease Accumulated Other Comprehensive Income (Loss) with a corresponding increase to Partners' Capital for the amount of unrealized gains on equity investments.

Cash and cash equivalents

The Organization considers all investments with an original maturity of three months or less to be cash and cash equivalents.

Income taxes

The company files its income tax returns as a partnership for federal and state income tax purposes, and thus no income tax expense has been recorded in the statements. Each member separately accounts for their pro-rata shares of the Partnership's items of income, deduction, loss and credits.

Accounting for uncertain tax positions

The Partnership files income tax returns in the U.S. Federal jurisdiction and the State of Vermont. The Company is no longer subject to U.S. Federal income tax examination by authorities for the years prior to June 30, 2019. With respect to the State of Vermont, with limited exceptions, the Partnership is no longer subject to examination by authorities prior to June 30, 2019. In the normal course of business, the Partnership is subject to examination by various taxing authorities. Although the outcome of tax examinations is always uncertain, the Partnership believes that there are no significant unrecognized tax liabilities at June 30, 2022.

VERMONT SEED CAPITAL FUND, L.P.

NOTES TO FINANCIAL STATEMENTS

June 30, 2022 and 2021

Note 1. Nature of Operations and Summary of Significant Accounting Policies (continued)

Allocation of profits and losses

In accordance with the Partnership agreement, the general rule (subject to modification, as defined) is that net income (and items thereof) and net loss (and items thereof) for any fiscal year shall be allocated among the Partners in a manner such that the capital account of each Partner, immediately after giving effect to such allocation, is, as nearly as possible, equal (proportionately) to the amount equal to the distributions that would be made to such Partner during such fiscal year, as defined, if (1) the Partnership were dissolved and terminated; (2) its affairs were wound up and each Partnership asset was sold for cash equal to its book value; (3) all Partnership liabilities were satisfied; and (4) the net assets of the Partnership were distributed to the Partners immediately after giving effect to such allocation. For purposes of this calculation, the Partnership will assume that the net assets are distributed and not reinvested in the Partnership. The General Partner may, in its discretion, make such other assumptions (whether or not consistent with the above assumptions) as it deems necessary or appropriate in order to effectuate the intended economic arrangement of the Partners so that capital accounts are maintained in accordance with Section 704(b) of the Internal Revenue Code.

Distributions

The General Partner, at its sole discretion, can make distributions of distributable cash, as defined, to the partners in a priority of (1) return of capital to the Limited Partners, (2) return of capital to the General Partner, (3) carried ownership interest of the Limited Partners and the General Partner, all as computed and defined in the partnership agreement. Certain distributions require reinvestments in the partnership as additional capital contributions, as defined.

Fair value measurements

Professional literature defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The guidance states that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions market participants would use in pricing the asset or liability under current market conditions at the measurement date. As a basis for considering market participant assumptions in fair value measurements, the guidance establishes a fair value hierarchy that is based on the subjectivity of inputs.

It distinguishes between observable inputs (Levels 1 and 2) which are either observable from market data or corroborated by observable market data and those that are unobservable (Level 3).

Three levels of inputs that may be used to measure fair value are as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities that are traded in an active exchange market.

VERMONT SEED CAPITAL FUND, L.P.

NOTES TO FINANCIAL STATEMENTS

June 30, 2022 and 2021

Note 1. Nature of Operations and Summary of Significant Accounting Policies (continued)

Fair value measurements (continued)

Level 2 – Inputs other than quoted prices included in Level 1 that are observable, either directly or indirectly. Such inputs may include quoted prices for similar assets, observable inputs include quoted prices (interest rates, yield curves, etc.) or inputs derived principally from or corroborated by observable market data by correlation or other means. This category generally includes certain U.S. Government and agency mortgage-backed debt securities and alternative investments using net asset value (NAV) per share for which the Partnership has the ability to redeem its investment at or close to the measurement date.

Level 3 – Inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. The inputs reflect the Partnership's assumptions based on the best information available in the circumstances. This category generally includes certain private debt and equity instruments, alternative investments where the investee at NAV per share or the redemption date is not close to the measurement date. This category also includes investments held in trust where the Partnership is not the trustee and the beneficial interest is in perpetual trust.

All long term investments (see Note 3.) have been valued in accordance with the definition of Level 3 inputs as described above.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Partnership believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Accounts receivable

Accounts receivable consisted of liquidating distributions due from an portfolio investment. It is the policy of management to review the outstanding receivables at year-end, as well as the bad debt write offs experienced in the past and establish an allowance for doubtful accounts for uncollectable amounts. Based on management's estimates there was no allowance for doubtful accounts necessary at June 30, 2022 and 2021.

VERMONT SEED CAPITAL FUND, L.P.

NOTES TO FINANCIAL STATEMENTS

June 30, 2022 and 2021

Note 1. Nature of Operations and Summary of Significant Accounting Policies (continued)

Subsequent events

Subsequent events have been evaluated through September 22, 2022, which is the date the financial statements were issued.

Note 2. Investments

Investments are stated at fair value and consisted of the following at:

	<u>Cost</u>	<u>Unrealized Gain (Loss)</u>	<u>Market Value</u>
June 30, 2022			
Equity Investments	\$ 1,827,818	\$ 6,391,730	\$ 8,219,548
Convertible Notes	<u>375,000</u>	<u>--</u>	<u>375,000</u>
Total investments	<u>\$ 2,202,818</u>	<u>\$ 6,391,730</u>	<u>\$ 8,594,548</u>
June 30, 2021			
Equity Investments	\$ 1,496,775	\$ 2,086,056	\$ 3,582,831
Convertible Notes	<u>75,000</u>	<u>--</u>	<u>75,000</u>
Total investments	<u>\$ 1,571,775</u>	<u>\$ 2,086,056</u>	<u>\$ 3,657,831</u>

All of the Partnership's investments in portfolio securities are illiquid interests in early stage, high risk, U.S companies mainly located in the state of Vermont. Investments consist of equity investments (including common and preferred stock and other equity investments) and four convertible promissory notes with interest rates of 6% and 7%.

The following schedule summarizes the net return on investments reported in the Statement of Operations for the years ended June 30:

	<u>2022</u>	<u>2021</u>
Realized investment loss	\$ --	\$(1,027,089)
Unrealized investment gain	4,305,674	1,131,381
Interest accrued and received on portfolio securities	<u>9,708</u>	<u>5,288</u>
Net return on investments	<u>\$ 4,315,382</u>	<u>\$ 109,580</u>

VERMONT SEED CAPITAL FUND, L.P.

NOTES TO FINANCIAL STATEMENTS

June 30, 2022 and 2021

Note 3. Fair Value Measurements – Investments

The table below segregates all financial assets and liabilities as of June 30, 2022 and 2021 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date: (Level 3 as described in Note 1.)

	<u>2022</u>	<u>2021</u>
Equity Investments	\$ 8,219,548	\$ 3,582,831
Convertible Notes	<u>375,000</u>	<u>75,000</u>
Total investments	<u>\$ 8,594,548</u>	<u>\$ 3,657,831</u>

In addition to quoted market prices in active markets, valuation techniques for Level 3 inputs included:

Level 3 investments were valued by the General Partner utilizing valuation metrics specific to the investment and the industry in which it operates. The Partnership's investment has been classified within Level 3 as it has unobservable inputs, as they trade infrequently or not at all. The Level 3 investments currently include convertible notes, common and preferred stock, warrants for common stock and equity interests in limited liability companies. When observable prices are not available for these securities, the General Partner uses one or more valuation techniques (e.g., the market approach, the income approach or, the cost approach) for which sufficient and reliable data is available. Within Level 3, the use of the market approach generally consists of using comparable market transactions, while the use of the income approach generally consists of the net present value of estimated future cash flows, adjusted as appropriate for liquidity, credit, market, and/or other risk factors.

The inputs used by the General Partner in estimating the value of Level 3 investments include the original transaction price, recent transactions in the same or similar instruments, completed or pending third-party transactions in the underlying investment or comparable issuers, subsequent rounds of financing, recapitalizations and other transactions across the capital structure, offerings in the equity or debt capital markets, and changes in financial ratios or cash flows. Level 3 investments may also be adjusted to reflect illiquidity and/or non-transferability, with the amount of such discount estimated by the General Partner in the absence of market information.

The fair value measurement of Level 3 investments does not include transaction costs that may have been capitalized as part of the security's cost basis. Assumptions used by the General Partner due to the lack of observable inputs may significantly impact the resulting fair value and therefore the Partnership's results of operations.

The General Partner, along with an independent investment committee, meet semi-annually to conduct an investment review whereby the fair value methodology is applied and investments are adjusted.

VERMONT SEED CAPITAL FUND, L.P.

NOTES TO FINANCIAL STATEMENTS

June 30, 2022 and 2021

Note 3. Fair Value Measurements – Investments (continued)

The table below sets forth a summary of changes in the fair value of the Partnership's Level 3 investment assets for the year ended June 30:

	<u>2022</u>	<u>2021</u>
Beginning balance	\$ 3,657,831	\$ 3,706,031
Realized and unrealized gain on investments	4,305,674	104,292
Purchases	631,043	100,000
Return of capital received	<u> --</u>	<u> (252,492)</u>
Ending balance	<u>\$ 8,594,548</u>	<u>\$ 3,657,831</u>

Note 4. Management Fee and Other Partnership Expenses

The Partnership Agreement provides for the payment of a quarterly management fee to the General Partner of 2% of the aggregate capital contributions to the Partnership, including any reinvestments of distributable cash to the Partnership.

As manager, the General Partner bears all normal operating costs and expenses incurred in connection with the management of the Partnership; the Partnership bears all costs and expenses incurred in the purchase, holding, sale or exchange of securities, as well as interest on indebtedness incurred by the Partnership, certain legal and accounting fees and other expenses which are specifically defined in the Partnership Agreement.

Note 5. Related Party Transactions

Pursuant to the Partnership Agreement the Partnership incurred management fees for services provided by the General Partner in the amount of \$121,601 and \$103,530 for the years ended June 30, 2022 and 2021, respectively. There were no outstanding management fees due to the General partner at June 30, 2022 and 2021.

Note 6. Concentration of Credit Risk

Bank balances are insured by the Federal Deposit Insurance Corporation (FDIC). At various times during the year Vermont Seed Capital Fund, L.P. may maintain its balance with one financial institution in excess of the federally insured limit.

Note 7. Reclassifications

Certain amounts for the year ended June 30, 2021 have been reclassified for comparative purposes to conform to the presentation used in the June 30, 2022 financial statements. The reclassifications have no effect on partners' capital for the year ended June 30, 2021.

VERMONT SEED CAPITAL FUND, L.P.

NOTES TO FINANCIAL STATEMENTS
June 30, 2022 and 2021

Note 8. Financial Highlights

The Partnership is required to disclose certain financial highlights for the common interest in the Partnership (i.e., the Limited Partners' interest). These financial highlights consist of the operating expenses and net investment loss ratios for the period ended June 30, 2022 and the Internal Rate of Return since inception (IRR) of the Limited Partners, net of all fees and profit allocations (carried interest) to the General Partner, through June 30, 2022. The following summarizes the Limited Partners' financial highlights:

	<u>2022</u>	<u>2021</u>
Net investment income (loss) ratio	62.56%	-0.63%
Operating expense ratio	2.20%	3.26%
Cumulative IRR	4.07%	-2.30%

The net investment loss and operating expense ratios are computed as a percentage of average partners' capital. The IRR was computed based on the actual dates of cash inflows (capital contributions), outflows (cash distributions), and the balance at the end of the year (residual value) of the Limited Partners' capital account as of the measurement date.

These financial highlights might not be indicative of the future performance of the Partnership. An individual partner's return may vary from this calculated return based on the timing of capital transactions.

Note 9. Coronavirus

On January 30, 2020 the World Health Organization declared the coronavirus (COVID-19) a "Public Health Emergency of International Concern" and on March 11, 2020, declared COVID-19 a pandemic. The spread of COVID-19, a novel strain of coronavirus, altered the behavior of businesses and people in a manner that is having negative effects on local, regional, and global economies. During the year ended June 30, 2021, COVID-19 impacted the Company in several ways. The on2021going extent to which COVID-19 will impact future operations of the Company will depend on continuous developments, which are highly uncertain, including the duration of the outbreak, new information that may emerge concerning the severity of COVID-19, the actions taken to contain COVID-19 or treat its impact, and the impact of each of these items on the economies and financial markets in the United States of America. The Company continues to establish protocols and measures to maintain operations while keeping constituents safe.

Note 10. Subsequent Events

In August, 2022, the Partnership sold its investment in Next Capital for \$1,468,952, which realized a gain of \$1,054,952. The accompanying financial statements reflect the full realizable value of this investment at June 30, 2022.
